A Note from Our Leadership

The impact of the health care industry can be quite unpredictable, and this year that was more evident than ever before. We saw hospitals nationwide and locally face challenges, and Saint Anthony Hospital was no exception. Change is inevitable, and it is critical to the success of our organization that we evolve with health care today. Saint Anthony Hospital continues to remain a strong pillar in our community.

We are committed to investing in quality programs and improving quality outcomes, despite rising costs. With an increase in denials, decrease in payments, reduced funding and a backlog of payments owed from the State of Illinois, our hospital had to go into an investment year, increasing our share of the financial commitment. The leadership team has proactively strategized a plan to return to the profitability of prior years.

As a community hospital, we continue to look for ways to serve our community to the best of our ability. To this end, we forged new partnerships this year – most notably our clinical partnership with UI Health. We are excited that we are now able to bring more advanced surgical services close to home for our patients, and they continue to let us know how we have had an impact.

One of our great accomplishments of the year was being recognized with the 2015 Illinois Performance Excellence Bronze Award for “Commitment to Excellence.” This award is given to organizations which demonstrate efforts to adopt and apply performance improvement initiatives, which follow the Baldrige Criteria for Performance Excellence.

We are the heart of our community and will remain a driving force for years to come. Thank you for your continued support.

Guy A. Medaglia
President and Chief Executive Officer

Chairman, Board of Directors
About Us

Our Mission
As a Catholic hospital, our mission is to promote health and provide quality care to patients and families of all faiths in our community.

Our Vision
Our vision is to inspire change through services that improve the overall health of our community.

Our Values
Our unwavering commitment to service excellence is achieved through investing in our employees and embracing our values of:

Customer Service: We define and meet our customers’ needs daily with compassion.
Accountability: We inspire trust; we honor our commitments; and we do what is right.
Respect: We treat everyone with dignity.
Excellence: We provide the highest level of quality service to our patients and colleagues.
Synergy: We complement each other’s strengths, and, together, through teamwork, we achieve results.

The Community Wellness Program provides our surrounding communities with much needed services supporting infants to the elderly. Free community-based services are offered at the hospital and at its two Community Wellness sites in Little Village and North Lawndale. The Community Wellness Program offers education, support, counseling and resources through the following service areas in both English and Spanish:

Community Nursing
Community Nursing health promotion programs include: Gestational Diabetes Services, Health Counseling, Prenatal Education and Wellness that Works. Over the year, the Community Nursing team enrolled 142 new clients (see Figure 1, page 10).

Family Support Services
Family Support Services focuses on the parent-child relationship, as well as the enhancement of the child’s social, emotional and intellectual development, which is seen in five programs: Developmental Support Project (DSP), Adults and Children Together (ACT) Against Violence, Parent-Child Interactive Group - Little Explorers, Early Childhood Education, and Adolescent and Parent Education (APE) Group. In FY16, Family Support Services had 20 % more new clients than the prior year (411 and 342, respectively) (see Figure 1, page 10).
Community Development

Mental Health Services
The Mental Health team provides free, culturally appropriate counseling for individuals, couples and families. Members of Family Support and Mental Health services collaborate frequently to address the needs of the whole family unit. In FY 16, the Mental Health Services team had 147 new clients, an 18% increase in new clients from the previous year (see Figure 1).

Healthcare Access
The Healthcare Access team provides guidance, resources and assistance to individuals, pregnant mothers and the elderly who are in need of health insurance, public benefits or senior wellness programs. Over the year, the Healthcare Access team enrolled 681 new clients (see Figure 1).

Note: To address their needs, a client can be enrolled in more than one service at a time - e.g., a client can be enrolled in a service provided by both Mental Health and Healthcare Access.
Community Development

Along with providing direct services to community residents, staff provided 109 informative, engaging presentations and workshops throughout the community reaching over 1,900 individuals during the year (see Figures 2 and 3). Furthermore, Community Wellness staff contacted over 7,700 community residents at over 34 health fairs throughout the Saint Anthony Hospital service area.

Community Development

New Client Demographics

Of the newly enrolled clients, 21% were in their 30s and 70% were female. Almost 50% spoke Spanish, while another 4% were bilingual, but preferred Spanish (see Figure 4).

Furthermore, 19% of new clients were residents of Little Village and 11.5% were from North Lawndale. Over 50% of the newly enrolled clients were insured by Medicaid or reported that they were uninsured (see Figure 5). Of the individuals seeking services provided by the Community Wellness Program over the year, the top three leading sources of referral were word-of-mouth, referrals from community organizations and receiving a referral from their physician.

UI Health Surgeons Now Provide On-Site Advanced Surgical Services

The focus for the Department of Surgery continues to be on improving existing programs at the hospital and adding resources to address community needs. To this end, Saint Anthony Hospital found that there was a need for expanded surgical services, so the Department of Surgery forged a partnership with UI Health to offer advanced surgical care.

In July and August 2015, we welcomed additional surgeons to the Saint Anthony Hospital surgical staff. General surgeons Antonio Gangemi, MD and Mario Masrur, MD joined the staff to offer advanced and innovative approaches to surgical care for adults and children. The additional staff and resources provided by the partnership with UI Health will continue to position Saint Anthony Hospital as a resource with some of the most state-of-the-art general and minimally invasive surgical procedures available today.

When asked about the UI Health partnership, Chairman of Surgery Howard Sankary, MD stressed that having a surgical team that can provide quality care in a convenient setting, as well as a partnership with a tertiary care center like UI Health is vital to serve the growing surgical needs of our community. This affiliation with an academic medical center also fosters a learning environment for medical students, residents and attendings at Saint Anthony Hospital, helping to promote better care overall.
**Patrick**

Patrick is in his early 50s and was diagnosed with prostate cancer three years ago. Patrick is a public servant and his cancer was disruptive to his career, but he is currently in remission and working. He often attends the support group meetings with his mother and brings donuts for the rest of the group.

The Patient Navigator describes Patrick as a fighter and one of the most positive people she knows. This space is a place for him to share his feelings with the other patients and also serve as a support for others with his positive attitude and encouraging words.

**Alma**

Alma is a 40-year-old woman who lives in the Little Village neighborhood. Alma heard of our services through a community partner agency and sought help because she was experiencing high levels of anxiety and post-traumatic stress disorder. Earlier in the year Alma was attacked by a stranger who entered her car unexpectedly.

Through psycho-education Alma was able to better understand the physical symptoms of anxiety her body was displaying and by learning various relaxation techniques and deep breathing exercises, she began to control her symptoms and reduce her anxiety level. Alma was given the support needed during one of the most difficult times in her life. Her anxiety levels decreased and her ability to function and participate in her family’s daily routine was restored.
Christina

25-year-old Christina and was seven months pregnant when she first visited the MLK Community Wellness site for assistance with resolving her case to obtain a medical card. Christina needed immediate assistance in getting prenatal care because her due date was quickly approaching. One of the program’s community resource educators was able to provide application assistance to her.

We are happy to report that one month later Christina received a letter stating that she was approved for a medical card. She was so pleased with the services she received from Saint Anthony Hospital’s Community Wellness Program from the outset to the resolution of her problem that she decided she wanted to have her baby at Saint Anthony Hospital. Christina also shared with us her gratitude for our staff who demonstrated their genuine concern for the wellness of her and her baby and said that based on her experiences, she will definitely refer people to Saint Anthony Hospital.

*Names have been changed to protect each individual’s confidentiality.*
In March 2016, Saint Anthony Hospital received the 2015 Illinois Performance Excellence Bronze Award for “Commitment to Excellence” for proving that its senior leadership’s actions guide and sustain the organization and the use of systematic approaches to improve key work processes. Recipients of this award are those organizations which have demonstrated earnest efforts to adopt and apply continuous improvement principles, following the Baldrige Criteria for Performance Excellence.

One of the first hospital improvements was appointing a chief quality officer to help initiate an organization-wide culture shift. Other enhancements involved training all staff from the main entrance receptionist to the emergency room and every practice in between to ensure continuity of care throughout the organization for all who come through the hospital doors. Medical and clinical department chairs were also hired to serve on the executive leadership team in order to get hands-on expertise and knowledge on what is needed to improve overall quality and patient care.
Summer Fest Returned for its 10th Year

In keeping with the organization’s commitment to build healthier lives in our communities, the hospital hosted its 10th annual community Summer Fest, including a Car and Bike Show, on Saturday, June 4, 2016. Summer Fest is the hospital’s largest community event of the year and is a great way for the families to kick off the summer, and get ahead for the following school year.

Everything was free, including admission, book bags for children, health screenings, on-site sports physicals and eye exams by certified Saint Anthony Hospital providers. The festival featured live entertainment and food from local vendors. Over 80 community partners and businesses were also on-site to share information about their services and resources.

Celebrating Our Survivors

For the third year, Saint Anthony Hospital hosted its annual Cancer Survivors Day on Sunday, June 12. The Infusion Center staff was on-site, including our physicians, to greet patients and their families. We took a different approach this year and let patients choose the celebration theme. The winning theme was a Hawaiian luau. Over 50 patients and their families attended this year’s celebration, with several patients sharing their success stories and personal transformation.
Thank you from the Foundation

We gratefully acknowledge those individuals, families, corporations and foundations whose donations have a direct and immediate impact on Saint Anthony Hospital. Year after year, our donors’ impact is critical in our ability to fulfill on our mission, vision and values.

Beyond our hospital walls, our commitment has always been on supporting our community at-large and philanthropy supports these needs. With the determined vision of our leadership and volunteer board, together with the resources provided by our many donors and friends, in 2016, we were once again able to address the health disparities of our communities in many on-the-ground ways, including mental health, healthy beginnings and cancer support group initiatives.

Historically, communities of color experience unique and considerable challenges in accessing mental health services. Our funders allowed us to provide one-on-one, couples and family support to those who needed it most, without the worry of a fee, or a limit on the length of services. Access is critical in an environment where stigma, attitudes, poverty and other social dynamics can limit opportunity. Philanthropic support allowed us to make a profound and meaningful impact at a time when our Community Health Needs Assessment points to the often multifaceted combination of clinical and social needs.

Grant support also provided the necessary resources for early intervention strategies and peer support for our parents and young children 0-3. Peer support is vital, and support from foundations has fostered better parenting and children growing up more engaged. Access to smart, caring clinicians is so important in treatment. Adding that other level of support, donations fostered opportunities for our patients and their families to participate in support groups that address the most pressing factors when dealing with disease, with topics including coping with stress and fatigue, nutrition, spirituality, treatment side effects, and survivorship challenges.

On behalf of our patients and staff, Saint Anthony Hospital thanks again the many individuals, families, corporations, foundations and other organizations who supported us in fiscal year 2016. To ensure that you’re on our mailing or email lists, or to learn more about giving to Saint Anthony Hospital, please contact the Foundation at 773.484.4870.

Bernadette O’Shea
Vice President and Chief Development Officer
Saint Anthony Hospital Foundation
Grant Work Highlighted

Children and families receive developmental support as a result of Irving Harris Foundation gift

The Saint Anthony Hospital Foundation received a $45,000 grant from the Irving Harris Foundation. This gift supports the Community Development Department’s Healthy Beginnings programming including Little Explorers, the Developmental Support Project, Adults and Children Together (ACT) Against Violence, and Adolescent and Parent Education (APE).

Healthy Beginnings promotes strong, healthy, parent-child attachments, as well as the social emotional and intellectual development of young children. This initiative is divided into four, free services offered in English and Spanish that provide an informal continuum of developmental support for both children and their parents.

Improving community health with a grant from The Chicago Community Trust

The Foundation was also the proud recipient of a $35,000 grant from The Chicago Community Trust. This gift supports the hospital’s Wellness that Works program.

Wellness that Works increases nutrition knowledge and physical activity among adults in North Lawndale who are overweight or obese and at-risk for chronic disease. The program helps individuals and their families eat healthier and become more active. Wellness that Works consists of 12, two-hour classes over the course of six weeks. This includes lectures, discussions, demonstrations, fun and engaging activities, and health screenings, all contributing to the program’s success.
Golfing for Good

10th Annual Foundation Golf Outing

This year’s Golf Outing, held on Wednesday, September 30, 2015, raised nearly $165,000 to benefit the Foundation. The chill and wind did not limit a great day of golf and fundraising. Proceeds supported the next stage of development for the Focal Point Community Campus and immediate needs of the hospital including:

- Emergency Department Upgrades
- Capital needs for Information Technology, Materials Management and Audiology
- Community Wellness Programs
